### **DETAILED ACTION**

This Office Action is in response to the Request for Continued Examination (RCE) filed 6/9/05.

#### ***Claim Objections***

1. Claims 11-18 are objected to because of the following informalities: the limitation "weighting controller comprises means for generating combinations of weighting coefficients for establishing an antenna directivity in a plurality of directions in which a party to communicate with is possibly present, when the communication session starts, and reducing the number of combinations to be generated during the communication session so as to be smaller than the number of combinations to be generated when the communication session starts" in lines 12-17 of claim 11 should be moved after the last paragraph of the claim, i.e., after "a communication session starts". Appropriate correction is required.

2. Claim 14 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. In particular, the limitation of claim 14 has been recited in claim 11.

***Allowable Subject Matter***

3. Claims 1-10 are allowed. Claims 11-13 and 15-18 would be allowable if rewritten to overcome the claim objection above.

***Conclusion***

4. This application is in condition for allowance except for the following formal matters:

Claim objections.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
